Project Title: 120th Ave Connection - Design-Build  
Project Number: STA C800-001  
EKS Job Number: DB120

**RE: TerraLogic**

To Whom It May Concern:

This letter is written as a recommendation for the Environmental Consulting Services provided by TerraLogic on the 120<sup>th</sup> Avenue Connection Project for Edward Kraemer & Sons (EKS). TerraLogic coordinated with EKS and CDOT to successfully develop all environmental reports including an overall Environmental Work Plan which was updated monthly throughout the project. They managed the Tree, Prairie Dog and Wetland Mitigations, developing the initial survey for each item. In addition, TerraLogic performed oversight on our Stormwater Management Plan. The frequent onsite inspections and review of the environmental surveys performed by Terra Logic reduced the environmental risk for the project, resulting in having no environmental impacts to the project schedule.

TerraLogic helped to make the 120<sup>th</sup> Avenue Connection Project successful for all involved. The project was very successful in regards to the environmental aspect with help from TerraLogic. I would recommend their environmental services in this area for future projects.

Sincerely,

A handwritten signature in blue ink that reads 'Kassie Watson'. The signature is written in a cursive, flowing style.

Kassie Watson, P.E.,  
Project Manager  
EDWARD KRAEMER & SONS, INC.
